

## Schaffer Environmental LLC

# Knows Green

Founded in 2008 and headquartered just outside Austin, Texas, Schaffer Environmental was established to provide leading environmental and sustainability consulting, advisory and project management services to organizations, businesses, governments and regulators around the world. Schaffer Environmental utilizes extensive experience in hands-on industry compliance, governmental and regulatory development engagements to apply real world experiences to existing and emerging environmental trends. Additionally, as the environmental field is rapidly growing and changing, Schaffer Environmental focuses on building and participating in diverse teams to provide research, guidance, education and strategic solutions for its clients.
